

I am writing to urge you not to expand the service of the LPFM stations. The expansion of this service could effect one of the stations I regularly listen to, K-Love, at 91.1 here in Denver. K-Love is one of the only stations that is safe for kids in my car to listen to. It is quality broadcasting and has a positive effect on our environment. It helps get word out of local events that benefit the community. It gives commercial free broadcasting to a number of people who are disappointed with the other stations available. Please do not do anything that would endanger losing this station. The effect on the community would be greater than the benefit of expanding the LPFM stations. If you have any questions, please feel free to contact me at rgd11@hotmail.com or at 303-376-5400. Sincerely, Danae Troup
